

MARKET- LEADING PRODUCT LIFESPAN

With an L80 of 85,000 hours, performance is guaranteed for up to ten years of continuous use.

UPGRADEABLE MODULAR DESIGN

The entire unit has been designed to enable LEDs to be upgraded as technology changes.

WIDE ANGLE LIGHT SPREAD

The optics designed by our in house experts give a 91.6 degrees beam angle and provide an even distribution of light.

SAFETY

Giving you piece of mind - Certified with a Safe Extra Low Voltage.

HIGHLY WATERPROOF

This product has been tested to withstand high pressure jets, as well as being protected from dust and other particles.

TELOS™ 0006

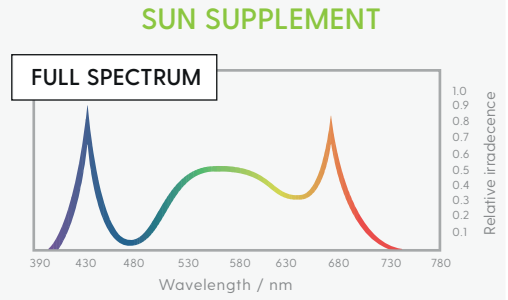

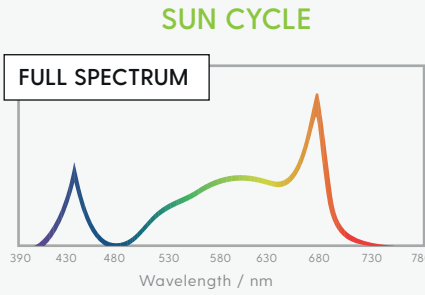

A tried, tested, modern and efficient LED grow light. Suitable for top-down growing applications, commercial greenhouses, and harsh environments such as advanced medical facilities. The use of passive natural convection has eliminated the need for a fan, reducing noise output and significantly increasing the life span of the light as it contains no moving parts. Lights are provided with an easy-to-use versatile hanging system. This includes PVC wire rope with stainless-steel clamps and carabiners to secure the light in the grow area using the eyelets on the main body of the unit.

The Telos ethos is to design and manufacture the most efficient, reliable and robust grow lights available on the market.

DIMENSIONS

SPECTRUM VARIANTS

SPECIFICATION

LIGHT OUTPUT PPF (umoles)	366	366
CALCULATED EFFICACY (380 nm - 820 nm) (umoles/Joule)	2.0	2.0
TESTED AT (380 nm - 820 nm) (umoles/Joule)	1.94	1.94
COLOUR RENDERING INDEX (CRI)	84	
LUMINAIRE COLOUR TEMPERATURE (KELVIN)	3146	
BEAM ANGLE	91.6 degrees	
LIGHT OUTPUT DEPRECIATION	85,000 L90	
<hr/>		
POWER INPUT	189 W	
POWER INPUT RANGE	175-190W (Non-dimmable driver)	
VOLTAGE INPUT RANGE	90 - 305VAC (Autosensing)	
FREQUENCY INPUT RANGE	47 - 63Hz	
INPUT CURRENT	0.78A / 230VAC	
MAX NUMBER OF TELOS SYSTEMS LINKED (POWER)	10	
POWER CABLES & CONNECTIONS	UK or EU plug to waterproof Weiland interface with Telos system (supplied as standard). Weiland to Pig Tails optional.	
<hr/>		
SYSTEM WEIGHT (LAMP AND DRIVER)	6 kg	
DIMENSIONS (L X W X H)	285mm, 249mm, 155mm	
INGRESS PROTECTION	IP66	
COOLING METHOD	Passive / Natural	
NOMINAL OPERATING TEMPERATURE RANGE	0 - 40°C	
<hr/>		
PHOTOBIOLOGICAL SAFETY	EN62471:2009 - Risk group: 2	
CERTIFICATIONS	CE marked, RoHS compliance, EMC and EMI certified	
WARRANTY	3 Years (limited). See the Telos warranty statement.	
DATA TOLERANCE	+/- 5% on all flux and power measurements	

APPLICATION NOTE

LIGHT DISTRIBUTION

HANGING GUIDELINES

To build PPFD levels, multiple lights should be utilised and arranged in a layered set up. Contact the Telos team for more information.
